AOS Ware Adds Educators Resource As Wholesaler

Jersey City, NJ (7.2.09) – AOS WARE is pleased to announce the addition of Educators Resource to our supported wholesalers list. This addition makes the entire product catalog from Educators Resource available on the OP Commander eCommerce platform.

Educators Resource is the leading wholesale distributor of PreK-8 learning materials and educational toys used by teachers, parents & children. Educators Resource product catalog includes:

- 20,000+ specialty school items, teacher supplies, toys and more
- Easy to navigate website and product catalog
- Robust search feature, with advanced filter options

“One of the benefits of our eCommerce system is that it can support multiple vendors”, explains Dave Stewart, Director of Product Development for AOS Ware. “The Educators Resource content is an excellent addition to an Independent Dealers product offering on their eCommerce website. Or, a Dealer can choose to launch a stand-alone website, populated only with Educators resource products”.

Brad Summersell, Executive Vice President at Educators Resource states, “ER provides independent dealers with access to sell everything teachers use in the classroom including 100% of the newest products from the top suppliers”. He adds, “We are excited to work with AOS Ware and its customers. By combining the ER product offering and service with traditional supplies & equipment, dealers can offer a full-line solution for their local school customers and attract teacher discretionary funds”

The demo site can be viewed at www.anyschoolsupplies.com.
